Dear Harold

Books arrived in fine shape, thanks for what you wrote inside them. I truly hope that you do consider me your ~~friend~~ friend. I will let you know as soon as my friend looks at white wash what we can do about making copys. Again is it ok to copy and use information from your books, I misplaced the letter in which I think you said it was ok. I would never misuse it. which I think you already know. Well we have had some days here in the low 70s which is setting a record for this time of the year here. About have my new VEC Repair Shop set up what a job, plus running this thing every day. I hope some time I can slow down, I would like to devote more time to this J.F.K thing, will give me some thing to do when I can't or don't want to do any things else. Well I have a ton of paper under this letter so I better get to it. Say Hi to Lil

Your friend

Bill

P.S. Please let me know if any of your supplies are low that I can get for you folders, boxes etc.
